

That's refreshing

No more...

Frustration

Expensive water truck bills

Waiting

Inconvenience

No more...

Short showers

Limited loads of laundry

Starving your plants

Dry, dying grass

Benefits

Access to an adequate, healthy water supply is essential to modern day living and is an expected part of the infrastructure in first world countries in the 21st Century.

- Improves your quality of life
- Superior value
- Easy & convenient to use
- Enhances your property value

Never run out.

Connect now & save

If you call to connect while our trench is open and before the trenching passes your property, then you are eligible for a discounted connection fee!

Save on cost and hassle by signing up while the trench is open, simply because the trenching and digging work is on us.

If you decide to sign up after the trench is closed then unfortunately there will be additional fees for re-opening the trench. **Avoid these costs, be smart and connect today!**
