

Preliminary Water Service Assessment/Application

Thank you for enquiring about Bermuda Waterworks Limited (BWL) potable water service.

BWL's piped water supply is limited to those areas where our pipelines are located, i.e. from our Devonshire plant and heading west. The pipeline network does not extend island wide. We therefore request some preliminary information from you to determine if we are able to provide you with a service from our existing pipelines or from new pipelines scheduled to be installed in the future.

Your expression of interest is extremely important to us not only for the present, but also for future planning. If we receive substantial interest from an area, then we will consider making that area a higher priority to extend our pipeline installation to.

The information requested at this stage does not explicitly or implicitly commit either party to any undertaking. It is solely for the purpose of enabling BWL to determine if it can provide water service either at present or within a reasonable period in the future. We will inform you of the feasibility to provide water service once we have reviewed your information.

If it is feasible, then we will advise you of the cost of the installation and will send you our detailed credit application form and water service agreement.

Surname: _____ Given names: _____

House Name & Number: _____

Street Address: _____

Parish: _____ Postal Code: _____

Tel:(H) _____ (C) _____ (W) _____ (Fax) _____

Email: _____
